### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

In view of the Decision of the Board of Patent Appeals and Interferences, the prior art of record does not distinctly disclose (in combination with all of the features of the invention), a grounding circuit selectively connected by a programmable connect to one of the first inverter output and the second inverter output, wherein said grounding circuit is temporarily enabled after power is applied to the SRAM device, thereby grounding one of the first inverter output and the second inverter output and forcing the second I/O line to the known logic state, as claimed in claims 10 and 20.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
